> Jiahui Tang

2.4. Movie Rating Data (10 points)

Develop a Spark version of the job to show movies with an average rating in the ranges:
Range 1: 1 or lower
Range 2: 2 or lower (but higher than 1)
Range 3: 3 or lower (but higher than 2)
Range 4: 4 or lower (but higher than 3)
Range 5: 5 or lower (but higher than 4)

You can use the `ml-latest-small.zip` file from Problem 1.4. You may need to use **DataFrames** to simplify the processing of the data.

```
$ spark-submit P24_spark.py
```

> **Submission**
> * `P24_spark.py`: Spark script
> * `P24.pdf`: The command line that you used to execute the job and any information required to reproduce the execution

Command Used:

```
spark-submit P24_spark.py
```

Output:

```
Range,list_of_movieId
